

THE

Fairies

by  
Rose Cronin

One day all the fairies were in the garden. It was bright and sunny they were having a picnic.

21

The beautiful fairy queen told all of the fairies that it was almost winter. They had to get ready for winter because fairies cannot get cold or they will die.

They started to collect leaves to keep warm.

They made winter clothes out of the leaves. They made jackets, snowpants, coats, blankets, mittens, socks and hats. They sewed all the leaves.

The fairies stayed warm and safe all winter...

**And had a BIG party when spring came.**
